

## Foreword

Thank you for downloading my Swedish wooden passenger wagon serie 1. This is version 0.6 of this package and will be followed by several upgrades until it reaches version 1.0.

The package **now** contain five wagons of C3g, DF5 and C3d types. Version 1.0 will also include C3e and BCo5

## Apperance in RailWorks:

The wagons will be sorted as "SJ\_MAWP1\_litt\_optional" where;

SJ is most significant identifier known as "Statens Järnvägar" (Swedish Railways)  
MAWP1 is my identifier (MA) and wooden package 1 (WP1)  
litt is C3g/DF5/BCo5 etc  
optional is alternative texture sets, versions or else.

## Version history:

- 0.1 2012-01-02 first internal release including SJ litt C3g with fixed identity 2590.
- 0.2 2012-01-03 reset transform fix, three objects
- 0.3 2012-01-31 C3d\_2230 (placeholder) and DF5 is new in this package.  
*Old C3g model is now "placeholder" for C3d, in teak liverier. Model needs to be adjusted for C3d window arrangement. Coupling values reworked. Only to test purposes.*
- 0v4 2012-02-04 Fixed bugg with couplings values in blueprint. *Comma replaced by dot.*
- 0v5 2012-02-05 Removed "ghost DF5" with old blueprint.
- 0v6 2014-09-26 Added C3d\_2114 and C3d\_2318. All C3 wagons added details. DF5 unchanged.**

## Version plans:

- 0.5 ———— release of SJ litt DF5
- 0.6 ———— release of litt C3e and 2 additional litt C3d.
- 0.7 release of SJ litt BCo5 and C3e
- 0.x possible other releases.
- 1.0 first release of all current types in first "finish" state.
- 1.x New models in same wagon style.

No promises for time schedules! 😊

## Goals for version 1.0:

### C3d C3e C3g

- Interior
- Models for ~~C3d~~ and C3e
- ~~- Enhanced and prototypical air ventilators~~
- Enhanced details such as air pipes, water guides on roof entre doors etc.
- Individual wagon number
- Additional texture version / 0v3: added red wood. 2 more "skins" to do.
- Enhanced texture on roof and frame including correct labels.

- Reworked details at door sides
- Complete verification pass of the different wagon equipments according to individual wagon and year.

#### DF5

- TBD, but similar to C3g.
- change buffers

#### BCo5

- TBD, and similar to C3g
- Completely new bogie

Goal for the package is to include about 10 different wagons. Future plans for this package is CF4 and C3a/C3b/C3c.

#### **Designer:**

Mazz (Mats Abramson)

#### **Restrictions:**

You are not allowed to make repaints of this wagon.

You are not allowed to upload these files at any other sites, without permission.

If you have questions, please send me a PM on "Svenska 3D-tåg", user Mazz.

#### **Installing:**

You install the package as you always do with RW stuff. But please bear in mind that these wagons are sharing textures to each other, and textures MAY be changed between releases. So, when installing the package, let the installer overwrite current installation.

#### **Download site:**

The wagon package will be downloadable currently only from [www.banbyggarna.se](http://www.banbyggarna.se)

If you have any issue or other matter regarding the package, you are welcome to post the issues at "Svenska 3D-tåg" forum.

#### **Credits:**

I have used some parts of textures from my MSTS version of C3g wagon. These textures were originally created by Json and there are some original works still in use. The roof on C3g is made from a picture from Bengan. Thank you! (Sv. 3D-tåg) Most textures parts are photo textures created from my own pictures.

Do you find more issues with the package? Let me know!

**Happy trainsimming! 😊**
